

IEC2-6-700

ELECTRIC CHARGRILL

The INDUC IEC2-6-700 electric chargrill delivers precision, flexibility and efficiency for professional kitchens. Its inclined grilling grid with U-shaped drainage ensures fast and effective grease removal, keeping the cooking surface clean. Two independently controlled workspaces allow simultaneous grilling of different foods, while adjustable temperatures in each zone cater to diverse barbecue preferences. Cleaning is effortless thanks to the rotating and rising heating tube, as well as the removable inner cavity, which can be scrubbed directly for thorough maintenance. Rapid and even heat transfer is guaranteed by the cast iron grilling mesh, and the adaptable oil baffle optimizes grease management for consistent performance. Constructed from durable stainless steel and supplied on a closed cupboard stand with adjustable non-slip feet, the IEC2-6-700 ensures a stable, reliable and professional grilling experience.

STANDARD FRYER FEATURES & ACCESSORIES
