Manual Gravity Feed Gear Driven Slicer - Heavy Duty

Ideal for Heavy Loads | Gear Driven | Manual Operation | 350 mm Blade Diameter

The gravity feed gear driven slicer has been designed to effortlessly handle heavy loads like cheese, bacon and meat that might cause slipping of a belt driven machine.

Manufactured from anodized aluminium with clean lines, the machine features a built-in sharpening head and blade ring-guard.

An ideal machine for high volume work required of large restaurants, supermarkets, delicatessens and butcher shops.

NS350HDG
