

ER7-6B

1200mm 6 Zone Induction Cooktop with Electric Oven

INDUCTION

Specifications

- Power Ratings: 35kW, 52.2A, 50Hz
- 3 Phase Electrical Connection
- Hard wired only due to high ampage
- 500mm from Left, 68mm from Rear, 715mm from Floor
- Protection Ratings: IPX4
- Working height: 850mm
- Dimensions: 1200 x 750 x 1000H @ 140kg
- Packed Dimensions: 1240 x 860 x 1260H @155kg

Features

- Cooktop with an Electric GN 1/1 Static Oven
- Suitable for all types of pan/pot work
- Cooktop capable of boiling 2 litres of water in 3 minutes
- Rapidly heat or turn down for a consistent simmer
- Instant energy transfer into the base of the pan/pot
- Toughened 6mm thick microcrystalline ceramic glass
- User friendly with visual heat setting display and timer
- Lower ambient heat for a more comfortable kitchen
- 90%+ thermal efficiency results in lower energy costs
- Safer than gas with zero carbon emissions or combustion
- AISI grade stainless used in all external panels
- High quality engineering and craftsmanship throughout

6 Zone Induction Cooktop

- 5kW rapid induction high-frequency coil technology
- Able to operate at low heat for a consistent simmer
- Standard rotary knobs for easy heat adjustment
- 8 Level heat settings with LED visual power display
- 6mm microcrystalline seamless and impact-resistant glass
- Auto detection turns heating off when pan/pot is removed

Electric Oven

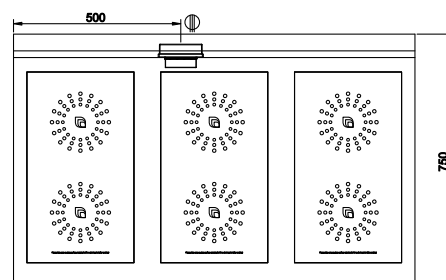

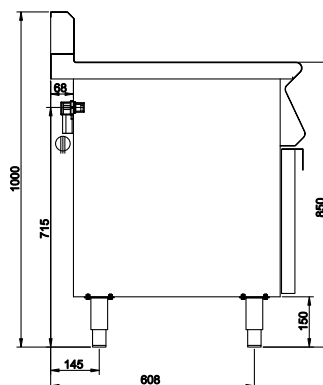

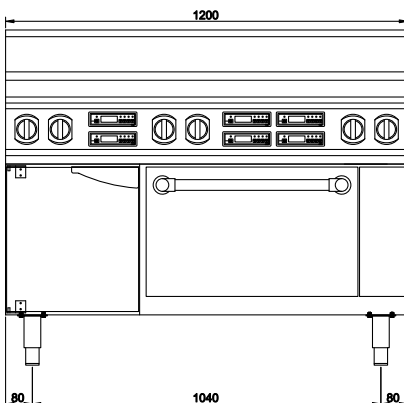

- 5kW Static Oven with top and bottom electric elements
- Internal oven cooking space: 530mm x 540mm x 280mm H
- Heavy-duty drop-down oven door
- Oven suits GN 1/1 sized pans with multiple rack positions

Cleaning/Serviceing

- Microcrystalline ceramic glass is easy to clean and maintain
- Parts & components easily accessible for servicing

Warranty

- 1 Year Included + 1 Year Extendable upon registration

Must be installed by an authorised person in accordance with AS/NZS 3000.

Please note that specifications or design may be altered at any time without notice.
